

A big "Hats Off" to the Sinclair Broadcast Group.

Their recent actions have brought to the forefront the dangers of a biased communication media.

CBS, NBC & ABCr use the public airwaves free of charge, obligated by law to serve the public interest.

But they do not! Rather, they present the news with a subliminal bias which panders to the viewers own view of moral and intellectual superiority.

Just like an avuncular doctor, Sinclair offers a second opinion and this doctor is giving this Country the medicine it needs!
